

Weekly Customer Fast Start Bonus

As an Independent Brand Partner (IBP), you earn a 20% weekly retail bonus on the first order of your new customers who purchase through your replicated website. The weekly sales pay period runs Friday-Thursday. The Fast Start Bonus is paid every Friday based on the sales from the previous week's pay period. There are no personal volume requirements to earn Retail Commissions.

WEEKLY CUSTOMER FAST START BONUS

20%

\$100 Retail x 20% = \$20

Earn 20% profit on the first product order of your new customers. There are NO volume requirements to earn retail commissions. *50% of customer volume goes into the other parts of the plan.

Weekly IBP Fast Start Bonus

When you enroll another IBP, you earn a Fast Start Bonus paid from the products inside the Enrollment Pack they choose. The percentage you earn is based on your current paid rank. Star-Makers and above earn 3 levels of pay. The weekly sales pay period runs Friday-Thursday. The Fast Start Bonus is paid every Friday based on the sales from the previous week's pay period.

WEEKLY IBP FAST START BONUS

| Level | Brand Partner | Star-Maker |
|-------|---------------|------------|
| 1 | 10% | 15% |
| 2 | 10% | 10% |
| 3 | | 5% |

Paid on the first product enrollment pack of your new Brand Partners. *50% of fast start volume goes into the other parts of the plan.

Monthly Customer Retention Bonus

You can earn 10-20% of the retail sales amount when your customers reorder the Celljetics products. The amount you earn is based on the number of customers and the total retail volume achieved during each calendar month. See the sliding scale to the right. You only need five customers and a total of \$300 in retail volume to receive 20% commission.

MONTHLY CUSTOMER RETENTION BONUS

Earn up to 20%

10% on customer reorders
 15% (3 customers and a total of \$150 orders)
 20% (5 customers and a total of \$300 orders)

There are NO volume requirements to earn a retail commission. *50% of customer volume goes into the other parts of the plan.

Income Disclaimer: This document and illustrations are only for educational purposes and is not intended to serve as a guarantee of income. Success in this business requires hard work, dedication and good sales skills. The average participant in this business earns between \$500 and \$2,000 per year. Some earn less while some earn much more.

Personal Production Rebate (PPR)

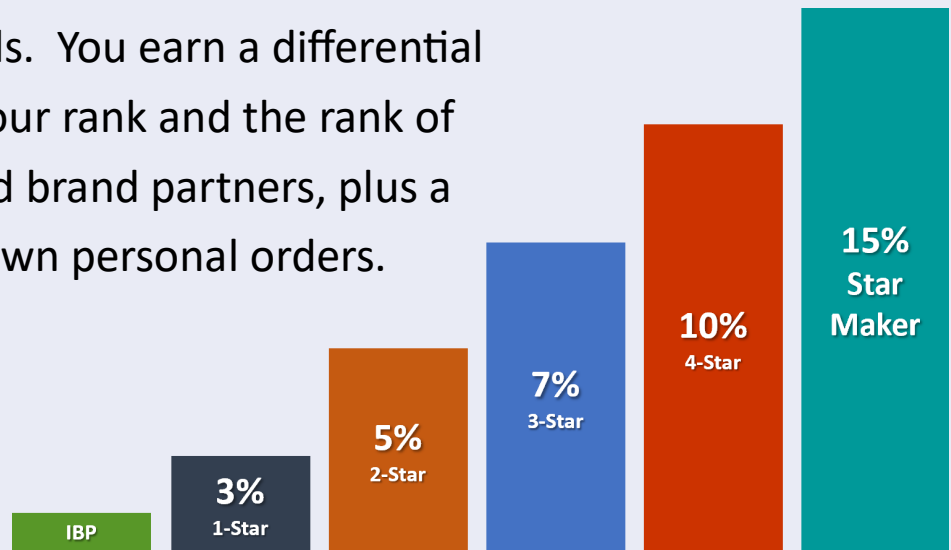

This is one of the most exciting parts of our plan because your Rank achieved is locked in for 12 months.

All of your personal orders, customer orders, and brand partners in your personal enrollment tree adds to your total volume (PTQV). You can earn up to 15% on your total PTQV. You can also earn the wholesale difference between the percentage level of your personally sponsored brand partners.

| PERSONAL PRODUCTION REBATE | | |
|----------------------------|------|-----|
| Rank | PTQV | % |
| Star-Maker | 2000 | 15% |
| 4-Star | 1000 | 10% |
| 3-Star | 500 | 7% |
| 2-Star | 200 | 5% |
| 1-Star | 100 | 3% |
| IBP | 0 | 0% |

For qualification and to earn commissions, you need a minimum of 80 PGQV during the calendar month. You can count 100% of the volume of any one leg up to 4-Star. The maximum volume counted per leg to qualify as Star-Maker is 80%. Any achieved rank is locked in for 12 months.

There are no pay levels. You earn a differential bonus (%) between your rank and the rank of your personal enrolled brand partners, plus a rebate back on your own personal orders.

For example, if you are at the Star-Maker level (15%) and have personally sponsored someone who is at the 2-star level (5%), you would earn 10% of their total Personal Team Volume.

The minimum Personal Group Qualifying Volume (PGQV) you need to earn this bonus is just 80 PGQV. There is no personal enrollment requirements to advance up to the rank of 4-Star. It's only based on your total group volume, not how many people you sponsor. To qualify as a Star-Maker, you would need two personally sponsored brand partners with no more than 80% of the volume from one leg.

This commission is paid monthly on the 10th of the following month.

Star-Maker Generation Override

This bonus is paid when you achieve the level of Star-Maker and have at least one Star-Maker in your personal organization. Since your Star-Maker in your team has reached the 15% level, you no longer earn the wholesale difference on the PPR sliding scale. Therefore, you can qualify to earn a 3% override on the Star-Maker’s total monthly group volume.

We refer to this as a “generation” override because it’s not based on the level of every brand partner, it’s based on all the orders under each Star-Maker regardless of their level. Your first Star-Maker could start on your second or third level in your personal enrollment tree, but that would be considered your first generation Star-Maker. You can earn 3% on as many as 5 generations of Star-Makers. See the chart below.

PERSONAL TEAM COMMISSIONS

| PERSONAL PRODUCTION REBATE | | | STAR-MAKER GENERATION OVERRIDE | | | | | |
|--|------|-----|--|----|----|----|-----|-----|
| Rank | PTQV | % | Star-Maker | 1K | 2K | 5K | 10K | 50K |
| Star-Maker | 2000 | 15% | PGQV | 80 | 80 | 80 | 80 | 80 |
| 4-Star | 1000 | 10% | Minimum PA | 2 | 3 | 4 | 4 | 5 |
| 3-Star | 500 | 7% | Star-Maker Generations | | | | | |
| 2-Star | 200 | 5% | 1 | 3% | 3% | 3% | 3% | 3% |
| 1-Star | 100 | 3% | 2 | | 3% | 3% | 3% | |
| IBP | 0 | 0% | 3 | | | 3% | 3% | |
| | | | 4 | | | | 3% | 3% |
| | | | 5 | | | | | 3% |
| <small>For qualification and to earn commissions, you need a minimum of 80 PGQV during the calendar month. You can count 100% of the volume of any one leg up to 4-Star. The maximum volume counted per leg to qualify as Star-Maker is 80%.</small> | | | <small>For qualification, the maximum volume counted per leg is 80%.</small> | | | | | |

Example: One of your Star-Maker’s total group volume equals 5,000 x 3% = \$150 Override

This plan has dynamic compression to keep paying all qualified Star-Makers as many as five generations. A qualified Star-Maker still earns on non-qualified Star-Maker volume. The compression is in place so the generations are not blocked by non-qualified Star-Makers. This allows our Star-Makers to earn the maximum commissions.

The maximum total volume a brand partner can count from one leg is 80%. This means you only need to produce 20% in outside volume to be qualified to earn the generation override. This commission is paid monthly on the 10th of the following month.

Trifinity Team Bonus

The Trifinity is exciting because you can work together with your team regardless of where they are positioned in the tree because there are no levels. You can earn on the total volume, not a limited number of levels like you have with a unilevel or matrix compensation plan. You could place someone 100 levels deep and earn as much as you would if they were placed on your first level.

Each IBP can build three teams and are allowed to place their personally enrolled brand partners anywhere in the Trifinity tree. It's recommended to place your new brand partners at the bottom of one of your three legs. Please consult with your upline sponsor and leaders for the best team strategy. You have up to 7 days to place the people you enroll out of the Holding Tank and into the Trifinity tree.

You qualify for the Ranks listed below based on your monthly Trifinity team volume. When you meet the specific criteria for a particular rank, you earn the Trifinity bonus associated with that rank. Once you achieve a rank, you are always recognized at that rank, but the amount you earn is based on your monthly volume for each month thereafter.

Matching Bonus: When you reach the level of Platinum, you are eligible to earn a 25% Matching Bonus on the Trifinity commission from the people you personally sponsor.

Infinity Bonus: At the Emerald level, you can start earning 1% on your total Trifinity team volume. As you advance to Crown, you can earn 5% on your entire volume. As other brand partners advance in your three legs to Emerald and beyond, you earn the difference between the percentage you qualify for and the percentage they qualify for.

One-Time Rank Bonus: Starting at the Bronze level, you will receive a rank advancement bonus based on your monthly volume and rank in the Trifinity. If you achieve two or more new ranks in the same calendar month, you will receive all the bonuses for each rank you achieved that month. The Rank Bonus is a one-time payment from Bronze to Emerald. Diamond, Blue Diamond, Black Diamond and Crown Diamond rank bonus will be paid in five, equal monthly installments for the months you maintain your newly achieved rank.

Must have at least one personal active (PA) brand partner in a leg to earn commission from that leg.

TERMS AND DEFINITIONS

Active IBP

Has a minimum of 80 PGQV from your personal and/or customer orders in a calendar month to be considered an active IBP to earn commissions and rank qualifications.

Personal Active (PA)

This is referred to how many personally sponsored active brand partners with at least 80 PGQV for the month.

Personal Team Qualifying Volume (PTQV)

This is the total volume generated from your entire personal sponsorship team including Star-Makers and above. It is used for qualifications and commissions for the Personal Production Rebate and the Star-Maker Generation Override.

Enrollment Sponsor

When you enroll another IBP, they are considered your personally enrolled brand partners. You, in turn, are referred to as their Enrollment Sponsor.

Placement Sponsor

Placement is referred to as the position the Brand Partner is placed in the Trifinity Tree. Each brand partner will have an enroller and placement sponsor.

Star-Maker Generations

This is referred to and used to calculate the commissions for the Star-Maker Generation Override. A generation represents your entire personal team of Star-Makers and their total PGQV.

Sponsorship Tree

This tree includes all the IBPs you personally sponsored and the IBPs they have personally sponsored throughout your entire organization. This tree is used to earn commissions from the Personal Team Commissions. There is no placement in the Sponsorship Tree.

Trifinity Tree

This tree includes all IBPs that are in your Trifinity team either from your personal sponsorship team and those who have been placed in your Trifinity team.

Total Downline Qualifying Volume (TDQV)

This is the total volume generated from your three teams in the Trifinity Tree. This volume is used to calculate and pay the Trifinity bonuses.

Holding Tank

When you enroll a new IBP, they will be placed in your Holding Tank. You will have 7 days to place your newly enrolled IBP in an available position in the Trifinity Tree.

Compression

Prior to paying the Star-Maker Override, if any Star-Maker within your organization is not qualified, then the next Star-Maker under them will be “compressed up” to take their place. This prevents blockage and assures our Star-Makers they are earning maximum commissions.

Lifetime Rank

Once an IBP achieves a rank, they will always be recognized at the highest rank they achieved even if they do not continue to meet the performance requirements for that rank.

Paid-As Rank

This is the rank a brand partner is paid based on their current monthly qualification achieved.

SmartShip

Is a monthly subscription order to have your products shipped automatically each month. It is not required to earn commissions in the Celljetics compensation plan.
